ABSTRACT

This book presents hundreds of lists of facts about social studies, geography, language arts, mathematics, and science for grades 4-8 to be read for enjoyment or as a source of ideas for school reports or projects, as a basic reference book of general information, or as the basis for a classroom "Jeopardy" game. Topics of lists in the book include the U.S. presidency; world rulers; languages; population; U.S. geography; letters, words, and phrases; reading; writing; money; time; weights and measures; branches of science; animals; ecology; food and nutrition; medicine and health; weather and climate; movies and television; music; sports; and things.
